25X1

On the basis of reports received during the period from 1 June to 1 July 1952, no changes are discernible regarding the strength and OB of Soviet Ground Forces in the Soviet-occupied countries of Europe. The transfer of the GOFG Hq from POTSDAM to NUENSDORF-ZOSEN and that of the Hq Third Gds Mecz Army from NUENSDORF to JUET-RBOG were completed in the middle of June 1952. The movement of most of the divisions to their summer training areas had already been completed in May 1952, whereas numerous special units - predominantly engineer troops - started moving to special training areas after the beginning of June 1952. During the same period, AAA units were rotated to the NUETZOW AAA range; those units which had completed training returned to their posts or rejoined their units at the troop training grounds. This process of training with special weapons in areas widely scattered restricts the immediate combat readiness of Soviet armies. The assembly of trains indicates that the rotation of personnel of the Soviet Ground Forces in Germany will start after the middle of July 1952. Although the cadre units of the Volkspolizei (VP) of the HVA were strengthened by further deliveries of weapons and recruiting of new personnel, no direct measures expediting the creation of full divisions are discernible.

GERMANY.Order of Battle.

1. Reports received during the period from 1 June to 1 July 1952 revealed no change in the general OB in the Soviet zone.

25X1 2. The following units in the Soviet occupation zone of Germany permanent locations and dates of observation were confirmed between 1 June and 1 July 1952:

Transfers.

3. The reshufflings in the JUENS DORF-ZOSEN-JUETERBOG area and in the POTSDAM area resulting from the transfer of headquarters and administrative offices of the GOMG from POTSDAM were largely completed in the middle of June 1952. On the basis of previous information, the main billeting areas are believed to be occupied as follows:

JUENS DORF-ZOSEN: Hqs of the GOMG and command echelon, probably in the Panzertruppenschule, with the tank repair shop remaining in the installation; the greater part of the 2d Gds AAA Div.

JUETERBOG: 25X1 My Third Gds Mocz Army and army troops in Neues Lager from where the 4th AT Arty Brig [redacted] of the IV Arty Corps was transferred to Ruegen Island in May 1952. There are indications that the Hq Third Gds Mocz Army will subsequently move to the former Adolf Hitler Camp north of Kloster Zinna, which the Walter Ulbricht Verwaltungssakademie stationed there started vacating.

POTSDAM: 25X1 The war academy of the GOFG from the Hindenburg Kaserne, JUENSDORF, moved to the Kriegsschule in BORNSTEDT. The 56th Motor Trans Regt of the KFG moved from the Cambrai Kaserne, JUENSDORF, to the Kaserne WILDPARK-Jest. Elements of the 2d Gds AAA Div [redacted] remained in the Hohenlohe Kaserne and Ludendorff Kaserne. Sections of the restricted DABELSBURG area are scheduled to house the Walter Ulbricht Verwaltungssakademie.

Training and Field Exercises.

4. Division Training.

In June 1952, most of the divisions were confirmed in their summer training areas where they had also been confirmed in 1951. * Due to intensified security measures at the training grounds, it was difficult to obtain information. On the basis of this information, it can be concluded that, at the beginning of June, training at group and platoon level prevailed, while exercises at company and battalion level were held only sporadically. Individual firing practice with tanks and artillery was frequently observed. No large-scale exercises have yet been reported from the training grounds. These items of information show that the training program corresponds to that carried through during the same period of time last year. From numerous reports, it can be inferred that, due to the unusual high percentage of recruits this year, special emphasis is placed on individual training. Training areas were confirmed to be occupied as follows in June 1952:

Eighth Gds Army Area.

OHDRUF: Elements of the Hq XXVIII Gds Mtz Rifle Corps with corps troops, excluding the engineer battalion; the 39th Gds Mtz Rifle Div which is permanently stationed in Altes Lager; the 20th Gds Mocz Div in the CHWINKEŁ area; and elements of the 13th AAA Div.

KINDEL: The Hq XXIX Gds Mtz Rifle Corps with corps troops, excluding the engineer battalion; and the 57th Gds Mtz Rifle Div. The training grounds appeared to be used to capacity. Information of May which made it seem that the number of troops was increased had not been substantiated in June. *

LOSSA: Elements of the 21st Gds Mocz Div; and presumably, elements of the 13th AAA Div.

Third Shock Army Area.

LSTYLING WATH: The 7th Gds Tank Div of the Third Gds Mocz army; the 19th Gds Mocz Div and the 136th Gds Mocz Tank Regt of the Third Shock Army in the area south of BORN; the 10th Gds Tank Div of the Fourth Gds Mocz Army, presumably,

in the area south of DOLLE; and elements of the 207th Mtcz
Rifle Div in the northern training area by rotation.

25X1
25X1

WIT STOCK: The 18th Mecz Div was last confirmed in the WIT STOCK area
at the end of May 1952.

First Gds Mecz Army Area.

KOENIGS-

BRUECK:

Army troops of the First Gds Mecz Army, excluding engineer
troops; the bulk of the 8th Gds Mecz Div; and the 11th
Gds Tank Div.

25X1
25X1

ZEITHAIN:

[REDACTED]

OTTERWISCH: A small training ground was determined in the area southwest
of GRIMA between OTTERWISCH and POMMSEN. Elements of the 8th
Gds Mecz Div and an NGB unit from LEIPZIG were engaged in firing
practice there in June 1952.

Second Gds Mecz Army Area.

25X1

Area of NEU-

STRELITZ:

The 2d Light Arty Brig (US) of the Second Gds Mecz Army from
GRANTENBURG was again determined in the cantonment in Deutscher
Forst in the middle of June 1952. The brigade apparently con-
ducts firing practice in the area south of SPECK.

Area south
of NEURUPPIN-

DEMBURG:

The unidentified Gds Hv Tank SK Regt and the 234th Mort Regt of
the 9th Gds Tank Div were confirmed there only until the end of
May 1952.

The 1st Mecz Div and the 12th Gds Tank Div were quartered in tent camps near
their posts of DOLBERITZ and NEURUPPIN in June 1952.

Third Gds Mecz Army Area.

JERDEN-

MARKENDORF:

The bulk of the 6th Gds Tank Div was still confirmed in Camp
JERDEN-MARKENDORF until mid-June 1952.

WEISSWASSER:

The 9th Mecz Div was last confirmed in WEISSWASSER at the end
of May 1952. It is believed that the division will also be
stationed there in June. There are indications that Camp
WOCHTEN will be enlarged toward northwest and an additional
training grounds will be established east of DELKENBERG.

Fourth Gds Mecz Army Area.

TEPLIN: Army troops of the Fourth Gds Mecz Army, including the engineer troops, the 25th Tank Div and the 6th Gds Mecz Div were observed at TEPLIN until the middle of June 1952. Main training activity there in June encompassed infantry training at group and platoon level, map-reading exercises and entrenching practice.

LIEBEROSE: The 7th Gds Mecz Div was confirmed there until 17 June. The training included individual training of recruits, advanced combat firing practice with light infantry weapons firing at a distance up to 200 meters, sub-caliber firing with tanks at moving targets over a distance of up to 80 meters; company practice marches and departure at regimental level.

Special Exercises.

5. a. Artillery.

The following artillery units were observed in ALTEGRAUBOW in June: the 6th Arty Div and the 34th Arty Div [] of the GOFG; the 43d Gds Army Arty Brig of the Eighth Gds Army; the 44th Army Arty Brig and the unidentified Army AT Brig of the Third Shock Army. Small tank units also staying there for short-term firing practice included elements of the 20th Gds Mecz Div; the 7th Gds Tank Div; the 9th Mecz Div; the 7th Gds Mecz Div; and the 136th Gds Pv Tank SP Regt of the Third Shock Army.

25X1

b. AAA units.

Elements of the following AAA components were also confirmed at ALTEGRAUBOW in June 1952: the 6th Gds AAA Div []; the 13th AAA Div; AAA Regts of the 20th and 21st Gds Mecz Div of the Eighth Gds Army. AAA units of the 12th Gds Tank Div stayed at ALTEGRAUBOW for two weeks. During the first half of June, units practiced at the JUSTROW AAA range by rotation.

Elements of the following units were observed moving from JUSTROW:

25X1 The 32d AAA Div [] of the GORG, returning to FRANKFURT/ODR

The 13th AAA Div of the Eighth Gds Army, returning to LEIPZIG-SCHOBNAU

An unidentified AAA Regt of the XXVIII Gds Mtz Rifle Corps, returning to OHRDRUF

The 4th Gds AAA Div of the First Gds Mecz Army, returning to KOENIGSBRUECK

25X1 The 62d AAA Div [] of the Third Gds Mecz Army, returning to KUMMERSDORF

An unidentified AAA Div of the Fourth Gds Mecz Army, returning to BEBERSWALDE.

c. Engineer Troops.

The following information is available on the distribution in June 1952 of engineer units at the engineer training sites on the Elbe River:

Area of JELICHOW east of STENDAL:

The engineer units of the Second Gds Mecz Army which moved to the area at the end of May were confirmed there at the end of June. It is assumed that engineer troops of the Fourth Gds Mecz Army, of which other elements were still observed at TEMPLIN on 13 June, also arrived in the area east of STENDAL. The identity of the units could not be determined.

BITKAU area:

Components of all engineer units of the Third Shock Army are carried there.

Dessau area:

The unidentified engineer regiment of the GORG which had been carried in the AKEN-BIELEFELD area in May 1952 was confirmed in the AKEN-LOSSAU area in June 1952. Engineer units of the Eighth Gds Army from BAD KOESSEN that arrived there on 2 June included the 19th Indep Gds Engr Bn of the army and the three engineer battalions of the XXIX Gds Mtz Rifle Corps. Of these units, the engineer battalion of the army and that of the 57th Gds Mtz Rifle Div returned to BAD KOESSEN on 20 and 21 June; the corps engineer battalion and the battalion of the 21st Gds Mecz Div apparently still were in the LOSSAU-AKEN area after 20 June. The latter units were joined by the two divisional engineer battalions of the XXVIII Gds Mtz Rifle Corps from GELLAU between 20 and 22 June 1952. According to confirmed reports, the corps engineer battalion of the XXVIII Gds Mtz Rifle Corps was at TEMPLIN. In addition, elements of the 21st Gds Mecz Div moved from their training area at LOSSAU to BEBERSWALDE on 17 June 1952. The bulk of the 21st Gds Mecz Div in HALLE departed for an undetermined location during the same period of time. It is possible that these elements also moved

SECRET

SECRET

10

25X1

to DESSAU going by road. Last year, the division had been involved in river-crossing practice near DESSAU as early as May. Hence, the following engineer units have been concentrated in the DESSAU-AKEN area for large-scale exercises since mid-June 1952:

The unidentified Engr Regt of the GOFG from BERNBURG

The 45th Gds Engr Bn of the 39th Gds Mtz Rifle Div

The 63th Gds Engr Bn of the 20th Gds Mecz Div

The unidentified Engr Bn of the XXIX Gds Mtz Rifle Corps

The unidentified Gds Engr Bn of the 21st Mecz Div

Presumably the bulk of the 21st Gds Mecz Div.

The 36th Pion Bridge Regt of the GOFG was still confirmed on the other engineer training site east of ROSSLAU in mid-June 1952.

WITTENBERG area:

The 35th Engr Regt and the engineer battalion of the three Divisions of the Third Gds Mecz Army were confirmed there until the end of June. The training site extends along the southeastern perimeter of WITTENBERG, south of the Arado Plant.

MUEHLBERG area, northwest of LIESA:

The 1st Assault Engr Regt of the First Gds Mecz Army could only vaguely be confirmed there in June 1952. It is believed that the other engineer battalions of this army are also engaged in practice there.

d. RUMGEN area:

On the basis of reports on tank shipments obtained at the beginning and the end of June it can be assumed that, in addition to the 4th AT Arty Brig [] of the IV Arty Corps from JUPTERBOG which arrived at RUMGEN Island in May, elements of the 14th Gds Mecz Div from JUPTERBOG, with about 50 tanks, also arrived there. []

[] the divisional units have conducted landing maneuvers from the sea to the eastern shore of the island on 16 June. Ten T-34 tanks, AT guns, 20 landing craft, escort boats and a large number of drifters were allegedly seen with the troops.

25X1

e. ROSTOCK area:

The unidentified artillery brigade of the LXXIX Gds Mtz Rifle Corps which was transferred from ALTMERGABCI to ROSTOCK in May 1952 was again confirmed at firing practice in the ROSTOCK Heath east of MANDELBACH at the end of June 1952. The troops in strength of one or two regiments which had been observed in the DOBBERAN area west of ROSTOCK at the beginning of June have not been confirmed thereafter that time. It is assumed that elements of the Second Gds Mecz Army, including also elements of the 1st Mecz Div, were involved in short-term exercises.

f. ALTMERGABCI-ZEITZ area:

[] eight shipments went from KREUZ and CHTZAU to ALTMERGABCI and ZEITZ during the period from 18 to 26 June 1952. The shipments included one from GLAUCHAU. Units

observed with the shipment included the Hq XXVIII Gds Mts Rifle Corps; the Hq 20th Gds Mecz Div and the [redacted] of two mechanized regiments of the division; the 94th RL Regt [redacted] of the XXIX Gds Mts Rifle Corps; and components of the 57th Gds Mts Rifle Div. The fact that, during the last days of June 1952, the strength of the air transport regiment at ALTBURG airfield was brought up to 60 Li-2s, and that troops were unloaded from transport planes and cargo gliders, indicated that field exercises were to include airborne maneuvers.

Transportation.

9. During the month of June, the operational situation of the Soviet Zone railroads was normal and the backlog of undispatched railroad cars slight.

25X1

25X1

Rail traffic across the border stations on the Oder-Neisse line continued to be normal. Special transportation operations under way during the reported period included the vehicle replacement program, the shipment of guns to Germany, the grain shuttle train program and the shipment of individual tanks and aircraft to Germany.

10. Railroad construction efforts were still concentrated on the construction of the Nordring BERLIN. The line will connect KAROW with BLANKENWERDER via BLANKENBURG and SCHILDOW. The embankment is being laid out for two tracks; however, for the time being, only one track is being built. The completion date for the project was fixed for 31 July 1952. There is a possibility that the line will also be utilized for operations of the BERLIN interurban railroad system. Other important construction projects included the reconstruction of the second track between GUBIN and WILMERSDORF and MOLTKEFELD and RUEHLAND; the reconstruction of the dismantled single track LIEBTZOW-BIEZ and TIPPLIN-PFENZLAU lines; and the reconstruction of the second track on the railroad bridge over the flood area of the Oder River near KUNSTEN-KLETZ within the framework of the double tracking of the Oder bridges near KUNSTEN and FRANKFURT/Oder.

Supply Situation.

11. In May and June, the bulk of supply shipments continued to consist of heavy equipment and of weapons. Prior to 17 June, 6,000 new vehicles, 152 tanks and 750 to 800 artillery pieces including mortars were observed arriving from the U.S.S.R. in the Soviet Zone of Germany. The new trucks were shipped to Germany within the framework of an extensive vehicle replacement program. The return to the U.S.S.R. of the used vehicles, which were newly painted and, allegedly, also overhauled, did not start until 4 weeks after the arrival in Germany of the first shipments of new vehicles. An estimated 3,000 used vehicles have been returned to date. At present, incoming and outgoing vehicle shipments are at about the same level. As the normal wear and tear of vehicles is estimated at 3,000 to 4,000 units per year, it appears that the shipments of new vehicles observed arriving in Germany this year, will increase the mobility of units, particularly AA and motor transport units and will bring units up to their authorized vehicle strength. From the destinations reported for the last batch of about 27 tanks, it appears that most of them were earmarked for cadre units of the VP. It is believed that most if not all of the artillery pieces and mortars sent to Germany were delivered to the VP. The sizable shipments of equipment and weapons and the shipment to Germany of 542 railroad cars loaded with ammunition increased the volume of Soviet supply traffic from the U.S.S.R. to Germany in May to a total of 2,525 carloads as against 2,201 carloads reported for April. Other military supply shipments were normal.

German Volkspolizei.

12. The reinforcement of VP cadre units with equipment and personnel was continued in June 1952. In addition to artillery pieces and other heavy weapons, tanks were now issued to the VP Dienststellen (VPD). It was definitely identified that a total of 25 T-34 tanks was shipped to VPDs. The number of new VP personnel inducted by continuous recruiting campaigns cannot be estimated correctly; it fluctuates individually with the individual cadre units. The present average strength should be about 2,400 men, i.e. about 25 percent of the authorized strength of a division. On the basis of this calculation, the total strength of HVA units including the schools is between 65,000 to 70,000 men. Elements of cadre units moved to so-called summer camps for training. The VPD FUENFEICHEN which is an engineer battalion of three companies was transferred to the area of GRANSEE where another VP unit was also unloaded. The Soviet ammunition depot in DAMENWALDE, north of GRANSEE, was said to have been turned over to the VP after the Soviet ammunition had been shipped to TEMPLIN. About 5,000 tons of ammunition had previously been trucked by the VP from the GRANSEE unloading station to KOENIGSSTADT. Several reports by various sources tended to indicate that the Grenzpolizei has been subordinate to the Ministry for State Security. It is definitely known that recent measures regarding the guarding of the zonal border and the isolation of BERLIN were given by the Ministry for State Security;

25X1 [redacted] There- 25X1
fore, it is possible that the Ministry for State Security gives the orders for the commitment of the Grenzpolizei but, for the time being, has no influence on the subordination of the units to the HVDVP.

AUSTRIA-HUNGARY.Training.

13. The troop training grounds were more heavily occupied in June than they were during the preceding months. In no case, however, did they exceed the battalion level. The rifle units practiced at the DOELLERSHEIM troop training grounds, while tank units and mechanized troops continued their firing and driving practice in the area of BRUCK on the Leitha River. The APETLON AAA range was used by AAA units of all divisions stationed in Austria and Hungary, but mostly by the 23d AAA Div, whose posts in STOCKERAU and KERNEUBURG were only lightly occupied during that period of time. The AA machine gun platoons of the 287th and 290th Gds Mtz Rifle Regts of the 95th Gds Mtz Rifle Div also practiced at APETLON. The majority of the 8th Gds Engr Bn of the 13th Gds Mecz Div departed from KLOSTERNEUBURG-WEIDLING, probably for a water training site on the Danube River in the area of TULLN. About two batteries of the unidentified AAA Regt in KAGRAN which, presumably, belongs to the Fifty-Ninth Air Army were shipped to APETLON by rail.

The 2500th AAA Regt of the 13th Gds Mecz Div was at KAISERSTEINBRUCH. The 15th Gds RL Bn of the 13th Gds Mecz Div and the 55th Tank Tng Bn are rather definitely carried in GATZENDORF. The large tank and SP gun unit in CEGLED, Hungary, may be carried as the 67th Gds Hv Tank SP Regt of the 2d Gds Mecz Div.
